SUMMARY

Skilled MCA graduate from PES University with a strong foundation in software development and programming languages such as Java and Python. Hands-on experience in developing dynamic web applications using HTML, CSS, JavaScript, React, Express.js, and Node.js. Seeking a Software Engineer position where I can contribute my skills in web development, backend services, and databases.

SKILLS

- **Programming Languages:** Java, Python
- **Front-End Development:** HTML, CSS, JavaScript, React
- **Backend Development:** Node.js, Express.js, Spring Boot
- **Databases:** MySQL, MongoDB
- **Computer Science Fundamentals:** Operating System, Networking, DBMS, OOP
- **Tools and Technologies:** Git, GitHub, VSCode, Postman, Docker

PROJECTS

STUDYINPROGRESS:ONLINE LEARNING PLATFORM

<https://github.com/Bharaths73/StudyInProgress-Online-Learning-Platform>

- Developed using **Express.js** and **Node.js**, enabling students to explore courses and instructors to manage courses.
- Implemented user authentication and authorization for secure access to various platform features.
- Used **MongoDB** for efficient data storage and retrieval of user information and course data.
- Managed state using **Redux toolkit**, ensuring smooth user session management across the application.
- Created user-friendly, responsive frontend interfaces using **React** and **Tailwind CSS**.
- Integrated the Razorpay payment gateway for payments, ensuring secure and efficient transaction processing.

COLLEGE ELECTION VOTING SYSTEM

https://github.com/Bharaths73/College_Election_Voting_System

- Built a full-stack application for managing college elections using **Spring Boot**, **React**, and **MySQL**.
- Incorporated **Spring Security** for authentication and role-based access control for admin and voter roles.
- Designed APIs with **Spring MVC** for voter registration, election management, and real-time results.
- Enabled real-time, secure voting with results made accessible to admins during the election.
- Utilized **Spring Data JPA** with **MySQL** for structured and efficient data management and storage.

CHAT APPLICATION

<https://github.com/Bharaths73/Chat-App>

- Engineered a real-time private chat application enabling seamless one-on-one messaging.
- Crafted with **React.js** (UI), **Node.js** with **Express** (backend), and **MongoDB** for chat storage.
- Established WebSocket connections via **Socket.io**, enabling real-time message delivery.
- Leveraged JWT-based authentication to ensure secure user access and prevent unauthorized chats.
- Constructed RESTful endpoints for user authentication, message retrieval, and chat management.

EDUCATION

MASTER OF COMPUTER APPLICATIONS

(2022 - 2024)

Specialization in Web Technology.

PES University, Bengaluru

CGPA: 7.9

BACHELOR OF COMPUTER APPLICATIONS

(2019 - 2022)

BMS College of Commerce and Management, Bengaluru

CGPA: 7.7

CERTIFICATIONS

BUILD A BACKEND NODEJS API WITH A REACT CLIENT
